

Georgios Lazaridis

Full-Stack Web Developer

Email: glazari27@gmail.com | Phone: +48500077957

Date of birth: 27.02.1995

Location: Wrocław, Poland

Professional Summary

Dynamic full-stack web developer skilled at delivering scalable, high-performance applications across diverse sectors. Successfully led secure, user-focused e-commerce projects, enhancing user experience and engagement. Proficient in modern frameworks such as React.js, Next.js, and Gatsby.js as well as back-end technologies including Node.js, PHP, and Python to streamline development and ensure reliable deployments on cloud platforms. Offers a strong foundation in SEO, accessibility, and DevOps practices that optimize project workflows. Ready to contribute a proven track record of on-time project delivery, whether independently or as part of a team.

Experience

WordPress Developer — Świeża Strona

Wrocław / Hybrid | Jun 2024 – Jun 2025

- Designed and developed custom WordPress plugins, integrations and themes.
- Worked on over 20 responsive, SEO-optimized websites, including e-commerce with mobile-first design.
- Conducted comprehensive client training workshops on WordPress CMS management and plugin integrations.
- Developed a Next.js Helpdesk platform with real-time updates and multiple authentication methods.
- Implemented Python and shell scripting for automation and data analysis internally.

Full-Stack Developer — Shroom Drink

Wrocław / Remote | Aug 2023 – Aug 2025

- Developed a custom headless WordPress theme for Shroom Drink startup using GraphQL and Gatsby.js for fast, scalable delivery.
- Implemented seamless data flow, optimized caching and queries for improved performance.
- Introduced automation workflows to streamline content and product management.
- Delivered a maintainable architecture supporting multilingual content and future scalability.

Full-Stack Developer — Art Open

Wrocław / Remote | Jun 2020 – Present

- Led design, development, and deployment of over 30 scalable, data-driven web applications.
- Architected modern front-end and robust back-end solutions with focus on SSR/SSG.
- Integrated and optimized APIs and third-party services, ensuring performance and security.
- Maintained code quality and DevOps workflows using Git, GCP, and Netlify.

Freelance Web Developer & Designer — Self-employed

Remote | Mar 2018 – Present

- Directed full execution of high-impact client projects and e-commerce platforms.
- Developed custom WordPress plugins, themes, and REST/GraphQL integrations.
- Implemented optimizations like code-splitting, lazy loading, and caching.
- Delivered UX-focused design and consultation with Figma prototypes.
